pest escape: *And provided further*, That such prohibitions shall not prohibit the movement of plant cuttings or plants that have been (1) freed from sand, soil, and earth, (2) subsequently potted and established in sphagnum moss or other packing material approved under §319.37-16 that had been stored under shelter and had not been previously used for growing or packing plants, (3) grown thereafter in a manner satisfactory to an inspector of the Plant Protection and Quarantine Programs to prevent infestation through contact with sand, soil, or earth, and (4) certified by an inspector of the Plant Protection and Quarantine Programs as meeting the requirements of paragraphs (c) (1), (2), and (3) of this section.
